## Specialized Video and Photograph Consent Form

Team Autism Memphis frequently uses the practice of reviewing videos of intervention and parent coaching as a reflective approach. Having videos available allows us to "see" movement and interactions we may have missed during a session. At times we may share a video during mentoring or reflective supervision. We can also send you videos of interactions during a session you may not be present to see. We ask that you complete the following, so we are using videos in a manner you are comfortable.

I, \_\_\_\_\_, give consent for myself and/or my  
child \_\_\_\_\_, to be videotaped or photographed by Team  
Autism Memphis under the following checked conditions:

In any circumstance deemed necessary and appropriate by my child's therapists

Educational Purposes - therapists or patient

Treatment review in clinic only - therapists/parent

Social Media

Any video or photo obtained falls under HIPPA confidentiality agreement in place with Team Autism Memphis.
